

● ANNUAL INDEX

PUBLIC WORKS

Volume 90

January-December

1959

THE MOST USEFUL ENGINEERING MAGAZINE
FOR CITIES, COUNTIES AND STATES

- This Volume of **PUBLIC WORKS** is available on microfilm through University Microfilms, 313 North First St., Ann Arbor, Michigan.

Published by Public Works Magazine, 200 South Broad Street, Ridgewood, N. J.

PUBLIC WORKS INDEX

January-December 1959

Volume 90

	Month and page		Month and page		Month and page
HIGHWAYS AND STREETS		Finance, Legal and Planning		Safety	
Bituminous Pavements		Centralized Garage Facilities Will Improve Vehicle Maintenance		Control and Protection of Traffic During Highway Construction	
Assessment Paving Project Matches	Jan.-77	Use of Street Maintenance	Feb.-103	Safety Devices on the Garden State Parkway	Jan.-94
Growing Population	Apr.-104	Specifications Can Accelerate Production and Quality Control in the Highway Program	Feb.-116	New Jersey Turnpike Utilizes Electronics for Traffic Surveillance	Feb.-113
The Uses of Asphaltic Materials in Highway Pavements	July-98	Rural County's 10-Year Road Reconstruction Program	Feb.-122	Construction Safety Program	Mar.-122
Rubber Roads Require Little Maintenance	July-115	Town Engineering and Flood Plain Zoning	Mar.-97	Personnel Safety on the Ohio Turnpike	Mar.-184
County Asphalt Plant Produces 850 Tons per Day	Aug.-180	Pinpointing Highway Schedules with a Graph System	Apr.-104	Safety Training for Street Maintenance Personnel	Apr.-112
The Interstate Highway System: A Report on Progress in Kansas	Dec.-103	Public Purchasing	Mar.-127	Cleaning Guard Rails	Sept.-103
Bridges, Culverts, Drainage and Tunnels		Snow and Ice Control		Stabilized Surfaces and Bases	
Site Plans for Bridges	Jan.-103	Snow Melting System Installed at State Highway Building		Salt Stabilization: An Important Road Building Tool	
Precast, Prestressed Concrete Bridges for County Roads	Feb.-96	Light Snowfalls and Ice Cause Our Winter Problems		Rural County's 10-year Road Reconstruction Program	Jan.-84
Painting New Jersey Turnpike Bridges	Apr.-200	Training and Organization Prepare for Rapid Change of Weather		Sulphite Liquid as a Road Binder Material	Mar.-97
Standard Plans for Bridges	May-130	Winter Operations on Connecticut Highways		Soil-Cement Subbase for Interstate Pavements	Apr.-130
George Washington Bridge Will Have a Lower Level	May-202	Express Toll Highway Needs Effective Snow and Ice Control		Calcium Chloride Dust Control on Unpaved Streets	Apr.-176
The County Engineer and the Consultant	July-101	Snow and Ice Control at the Township Level		Street Cleaning	
Construction of Fort Pitt Tunnel Passes $\frac{3}{4}$ Mark	July-117	Winter or Summer . . . There's Road Work for Graders		Street Cleaning in San Francisco	
Painting Pulaski Skyway Bridges	Aug.-208	Snow and Ice Control in the District of Columbia		Street Cleaning in a residential Community	Jan.-148
Illumination on Bridge Roadway	Aug.-214	Snow and Ice Control on County Highways		Leaf Collection Requires Adequate Equipment	May-129
Erosion Control Dams Replace Old Wooden Bridges	Oct.-95	Green Slush Prevents Corrosion		Long Beach Combines Tour and Teaching to Improve Sweeper Operations	May-135
The Effect of Interchange Spacing The Design of Prestressed Concrete I-Beams	Oct.-98	Street and Area Lighting		Cleaning Streets With a Tractor Shovel	July-114
Bridge and Pavement Design for Interstate Roads in Michigan	Nov.-106	Street Lighting Program Will Add 6,500 Units		Sweeping City Streets	Aug.-162
Coordinating Flood Control and Storm Drainage for County Roads and City Streets	Nov.-136	Outdoor Lighting for a New Group of State Office Buildings		Street Sweeping and Flushing in San Francisco	Oct.-118
Concrete Pavements		Turnpike Service Area Illumination		Surface Maintenance	
Concrete Pavements for City Streets	Jan.-108	City Modernization		Seal Coating by County Forces	
The Interstate Highway System: A Report on Progress in Kansas	Dec.-103	Parkway Lighting Will Enhance Miami's "21-Nation" Garden		Use of Street Maintenance Inspection Forms	Jan.-106
Construction Methods		How a Small City Modernized Its Street Lighting		Double Seal Coat for Primary and Secondary Roads	Feb.-116
Farm-to-Market Road Construction	Jan.-83	Relighted Business Street		Rubber Roads Require Little Maintenance	Apr.-125
Earthmoving on an Interstate Project	Mar.-126	Illumination on Bridge Roadway		Repaver Irons Out Road Wrinkles	July-115
Construction Safety Program	Mar.-184	Lighting Gives Full Recreational Use of Parks		Equipment	
Construction of Fort Pitt Tunnel Passes $\frac{3}{4}$ Mark	July-117	Two-Year Program Relights This Progressive City		Training Highway Department Personnel to Use the Electronic Computer	
Dynamite + Imagination and Experience = Economy	July-129	Materials		Centralized Garage Facilities Will Improve Vehicle Maintenance	Jan.-81
Roadbuilding Through Hills of Clay	Oct.-124	Concrete Pavements for City Streets		Use of Street Maintenance Inspection Forms	Feb.-103
Drainage		Bituminous Concrete Plant Inspection		Motor Grader Has Many Uses	Mar.-125
Importance of Soils Surveys and Foundation Stabilization	Jan.-91	18-Month Exposure to Severe Conditions Tests Protective Coating		Tractor Fleet Is Matched to Jobs	Apr.-106
Drainage of a Chicago Superhighway	Mar.-184	A County Engineer Looks at a Mobile Testing Laboratory		Performance Specifications for Highway Equipment	Apr.-208
Use of Highway Embankments for Water Impoundment	May-190	The Uses of Asphaltic Materials in Highway Pavements		Cost of Operation of Road Machinery	May-162
Leaching Drain Solves Two Problems	Aug.-196	Work of a County Testing Laboratory		Versatile Equipment Sparks County Highway Operation	June-108
Erosion Control Dams Replace Old Wooden Bridges	Oct.-95	Calcium Chloride Dust Control on Unpaved Streets		New Developments in Construction Equipment	June-202
Roadbuilding Through Hills of Clay	Oct.-124	Parking		Tractor Used on Landfill Doubles for Other City Work	Aug.-129
Coordinating Flood Control and Storm Drainage for County Roads and City Streets	Dec.-85	Municipal Parking Lot Features Automatic Toll Collection		Winter or Summer . . . There's Road Work for Graders	Sept.-106
Equipment		Municipal Parking—Operation and Design Standards		Service Proves Value of Automatic Time Recorder	Oct.-101
Training Highway Department Personnel to Use the Electronic Computer	Jan.-81	Pavement Design		Special Truck Bodies Used by Cities	Nov.-146
Centralized Garage Facilities Will Improve Vehicle Maintenance	Feb.-103	Loading Design for Asphalt Pavements			
Motor Grader Has Many Uses	Mar.-125	Concrete Pavements for City Streets			
Tractor Fleet Is Matched to Jobs	Apr.-106	The Granite State Looks to Its Highways			
Performance Specifications for Highway Equipment	Apr.-208	The Uses of Asphaltic Materials in Highway Pavements			
Cost of Operation of Road Machinery	May-162	Bridge and Pavement Design for Interstate Roads in Michigan			
Versatile Equipment Sparks County Highway Operation	June-108	Pavement Modernization			
New Developments in Construction Equipment	June-202	Program for Improvement of Secondary Roads			
Tractor Used on Landfill Doubles for Other City Work	Aug.-129	Rural County's 10-Year Road Reconstruction Program			
Winter or Summer . . . There's Road Work for Graders	Sept.-106	Assessment Paving Project Matches Growing Population			
Service Proves Value of Automatic Time Recorder	Oct.-101	Street Sufficiency Study			
Special Truck Bodies Used by Cities	Nov.-146	Widener Speeds Road Rehabilitation			
		Roadside Improvement			
		Ohio's Roadside Rests Increase Travel Pleasure			
		Litter on County Highways is a Costly Problem			
		Reducing Roadside Mowing Costs with Chemicals			
		New Era Opens for Roadside Parks			
		How Connecticut Reduces Guard Rail Weeding Costs			

	Month and page
Surveying Methods	
Training Highway Department Personnel to Use the Electronic Computer	Jan.—81
Importance of Soils Surveys and Foundation Stabilization in Subdrainage	Jan.—91
Site Plans for Bridges	Jan.—103
Work of Electronic Computer Center of Georgia Highway Dept.	Aug.—178
Tax Map Project Takes to the Air	Sept.—126
Electronic Surveying for Sewer Plan	Oct.—186

Traffic Control and Signs	
Signs for Interstate Highways	Jan.—86
Control and Protection of Traffic During Highway Construction	Jan.—94
75,000 Signs Guide Traffic in Seattle	Feb.—111
New Jersey Turnpike Utilizes Electronics for Traffic Surveillance	Mar.—122
What About Traffic Engineering in Smaller Towns?	Apr.—111
Basic Principles for Direction Signs	May—116
Cleaning Freeway Signs	July—132
Pittsburgh's Approach to Traffic Planning	Aug.—110
Overhead Supports Carry Signs and Signals for a Busy City Street	Aug.—178
The Effect of Interchange Spacing	Oct.—98
Westchester County Spearheads Trend Toward New Directional Signs	Oct.—123
Traffic Engineering in Tomorrow's Transportation	Oct.—216
The Job of the Traffic Engineer—It Lasts the Lifetime of a Road	Nov.—87
Thermoplastic Road Striping Material	Nov.—155

Two-Way Radio	
100-Lane Expressway for Public Works Communications	May—120
One-Crew Utility Depends on Two-Way Radio	June—103
Improved Communications Produce Better Highway Maintenance	July—127
Flood Forecasting	Sept.—113

Weed and Brush Control	
Brush Chipping Machines Pay Off in Six Months	Apr.—137
Reducing Roadside Mowing Costs with Chemicals	June—128
How Connecticut Reduces Guard Rail Weeding Costs	Dec.—83

Highway and Airport Digest	
Jan.—128; Feb.—134; Mar.—144; Apr.—164	
May—164; June—152; July—158; Aug.—164	
Sept.—164; Oct.—160; Nov.—126; Dec.—138	

REFUSE COLLECTION AND DISPOSAL

Collection Methods	
Revised Schedule Streamlines Garbage Collection	Jan.—100
Residential Community Gets Special Refuse Collection Services	Mar.—108
Refuse Collection and Disposal Operated at a Profit	May—108
Efficiency Study Cuts Refuse Handling Costs	June—109
Reorganizing Refuse Collection	Sept.—108
Durable Plastic Box Developed for Refuse Collection	Sept.—200
Refuse Study Program: Characteristics and Quantity	Nov.—125
Litter Baskets Stressed in Town Clean-Up Campaign	Nov.—160
Who Collects Garbage in Cities?	Dec.—128

Incineration	
A Modern Look at Refuse Incineration	Sept.—123
New Incinerator Gives Complete Fly-Ash Control	Oct.—135
Municipal Incinerator Selection	Nov.—99

Sanitary Fill	
Operation of Sanitary Landfills by Counties	Feb.—125
Landfill Ends Refuse Disposal Problems	Mar.—131
Refuse Collection and Disposal Operated at a Profit	May—108
Safety Practices at Sanitary Landfills	Aug.—113
Tractor Used on Landfill Doubles for Other City Work	Aug.—129
The Effect of Adding Water to Municipal Refuse for Increased Compaction in Sanitary Landfills	Oct.—129

Other Disposal Methods	
Composting Municipal Refuse	Feb.—166
Odor and Insect Control at a Landfill Operation	Apr.—114

Refuse Digests	
Jan.—138; Feb.—152; Mar.—168; Apr.—152;	
May—152; June—166; July—172; Aug.—150;	
Sept.—180; Oct.—176; Nov.—140; Dec.—130	

SEWERAGE AND SEWAGE TREATMENT

Finance, Legal and Planning	
Use of Pressure Pipe in Public Water and Sewer Utilities	Jan.—89
Forty-Year Sewerage Plan for a Metropolitan County	Feb.—94
Statistics Show Trend Toward Secondary Treatment of Sewage	Apr.—160
Solving the Water and Sewerage Problems of County Urbanization	May—104
Sewage Treatment Plant Will Grow with Population	June—98
How a County Solves Its Sewage Disposal Problem	July—123
Suburban Sewers Cost Less with Integrated Planning	July—134
103 Miles of Trunk Sewers for County Sanitation Districts	Aug.—93
Trunk Sewer Project Starts a \$100 Million System	Aug.—127
Comparison of Digging Rates Justifies Backhoe Purchase	Sept.—104
Planning a Two-City Industrial Site	Sept.—129
Sewer Rental Program in Pennsylvania Providing Sewage Disposal for a Metropolitan Area	Nov.—94
Survey Shows Present Status of Oxidation Ponds and Sewage Lagoons	Dec.—90
Tri-Fuel Engines Power New Secondary Sewage Treatment Facilities	Dec.—108
Metropolitan Government Will Plan Sewage Disposal for the Seattle Area	Dec.—120
Wheeling to Use Zimmerman Process	Dec.—160

Sewer Systems—Construction	
Equipment and Procedures for Sewer Lateral Installation	Jan.—72
Use of Pressure Pipe in Public Water and Sewer Utilities	Jan.—89
Forty-Year Sewerage Plan for a Metropolitan County	Feb.—94
Sewage Pumping Stations Built Below River Level	Mar.—113
Biggest Magnetic Flow Meter	Mar.—168
Neatness Counts on Sewer Construction Project	Apr.—127
Safety in Sewer Construction and Maintenance	May—113
Lagoons and Prefabricated Lift Station Used in Sewage Treatment	May—204
Compression Type Joints Speed Sewer Construction	June—102
Suburban Sewers Cost Less with Integrated Planning	July—134
Trunk Sewer Project Starts a \$100 Million System	Aug.—127
Infiltration 91 Percent Below Allowable	Sept.—98
Comparison of Digging Rates Justifies Backhoe Purchase	Sept.—104
A New Method for Tapping Into Sewer Lines	Nov.—138

Sewer Systems—Design	
Coefficients for the Solution of Manning's Formula	Mar.—112
Portable Stilling Well for Measurement of Weir Discharges	Apr.—107
New Computer Programs in the Field of Sewer Hydraulics	Aug.—194
Electronic Surveying for Sewer Plan	Oct.—186

Sewer Systems—Maintenance	
Sewer Inspection by Closed Circuit Television	Feb.—115
Catch Basin Cleaner Saves Manhours	Feb.—152
Catch Basin and Sewer Cleaning Safety in Sewer Construction and Maintenance	May—113
We HAD a Sewer Problem!	Oct.—208

Sewer Systems—Storm Drainage	
Town Engineering and Flood Plain Zoning	Mar.—110
Catch Basin and Sewer Cleaning	Mar.—176
Big Pipe Solves Storm Drainage Problem	Mar.—183
A Metropolitan County Organizes for Storm Drain Maintenance	Apr.—116
Leaching Drain Solves Two Problems	Aug.—196
Coordinating Flood Control and Storm Drainage for County Roads and City Streets	Dec.—85

Sewage Pumping	
Sewage Pumping Stations Built Below River Level	Mar.—113
Lagoons and Prefabricated Lift Station Used in Sewage Treatment	May—204
What Are the Characteristics of the Unknown Pump?	June—111

Sewage Treatment—Design	
Replacing Conventional Grit Chambers	Jan.—68
Are Sludge Digesters Obsolete?	Feb.—62
Serial Distribution of Septic Tank Effluents	Feb.—108
Complete Treatment Plant Designed for a Mountain Resort City	Mar.—100
High Filter Loading Solves Sewage Treatment Problems	Mar.—132
Sewage Treatment Plant Will Grow With Population	June—98
Sludge Gas Utilization	Oct.—110
Pressure Loss in Air Mains Due to Friction	Oct.—126
Secondary Sewage Treatment Facilities are 3½ Miles from Primary Plant	Nov.—83
Providing Sewage Disposal for a Metropolitan Area	Nov.—94
Weirs on Sedimentation Tanks	Dec.—66
Survey Shows Present Status of Oxidation Ponds and Sewage Lagoons	Dec.—90
Sewage Plant Designed for Operator Efficiency	Dec.—99

Sewage Treatment—Industrial Wastes	
Sanitary Engineering and Industrial Waste Treatment	May—124
Solving an Industrial Waste Treatment Problem	June—104
Control of Canning Waste Oxidation Ponds	Aug.—133
Oxidation of Organic Wastes in Stabilization Basins	Sept.—196

Industrial Waste Digests	
Jan.—152; Feb.—162; Mar.—178; Apr.—190;	
May—192; June—180; July—184; Aug.—198;	
Sept.—190; Oct.—192; Nov.—156; Dec.—156	

Sewage Treatment—Construction	
Complete Treatment Plant Designed for a Mountain Resort City	Mar.—100
Secondary Sewage Treatment Facilities are 3½ Miles from Primary Plant	Nov.—83
Prestressed Tanks Float in Muck	Dec.—94
Sewage Plant Designed for Operator Efficiency	Dec.—99
Fabric Cover Solves Sewer Gas Problem	Dec.—110

Sewage Treatment—Operation	
Application of Plastics in Chlorination Systems	Jan.—115
22 Years of Experience With Sewage Gas Engines	Apr.—101
Safety in Sewage Treatment Plant Operation	June—121
Sedimentation Tank Efficiency	July—84
Sludge Removal From Primary Clarifiers	Aug.—52
Sludge Utilization and Disposal	Aug.—120
Control of Tricking Filter Flies	Aug.—188
Operation of a Contact Aeration Plant	Sept.—118
Measuring Digester Performance	Nov.—56
Tri-Fuel Engines Power New Secondary Sewage Treatment Facilities	Dec.—108
Report Covers First Year's Operations of County Sewage Disposal Facilities	Dec.—136

Treatment Methods and Research	
Are Fungi Important in Sewage Treatment?	Jan.—113
Recent Developments in the Aerobic Biologic Treatment of Wastes	Jan.—117
Tricking Filter Research	Mar.—82
The Next Step for Economy in Wastes Treatment	Apr.—138
The Re-Use of Treated Waste Water for Domestic Purposes	May—117
O.R.P. and Sewage Treatment	May—136
Stream Life and the Pollution Environment	July—104
Elutriation	Sept.—76
Oxidation of Organic Wastes in Stabilization Basins	Sept.—136
Sludge Gas Utilization	Oct.—110
A Field Study of Contact Aeration	Oct.—130

Sewerage Digests	
Jan.—138; Feb.—152; Mar.—168; Apr.—152;	
May—152; June—166; July—172; Aug.—150;	
Sept.—180; Oct.—176; Nov.—140; Dec.—130	

WATER SUPPLY AND PURIFICATION

Finance, Legal and Planning

Use of Pressure Pipe in Public Water and Sewer Utilities	Jan.-89
Water Project Designed for Seven-Fold Expansion	Mar.-119
Land Uses and Water Consumption Requirements	Apr.-120
Solving the Water and Sewerage Problems of County Urbanization	May-104
Utilities: What Can Be Done About Them?	June-105
Instrumentation for Process Control in a Modern Water Treatment Plant	July-95
In Water Plants . . . How Small Is Small?	Aug.-125
Planning a Two-City Industrial Site	Sept.-129
A Check List for Water Treatment Plant Design	Sept.-132
Control Center for Milwaukee's Water Works	Oct.-104
Electronic Information System Provides Centralized Records and Operational Control	Oct.-105
Waterworks Move Toward Automation	Nov.-114
Breakpoint Chlorination Results in a Saving	Dec.-93
A Report on Wichita's Water Supply	Dec.-97
Planned Program of Development Meets Growing Water Needs	Dec.-106

Water Pumping

Independent Emergency Power for Water Plants	Mar.-129
What Are the Characteristics of the Unknown Pump?	June-111
City Prefabricates Housing for New Well	Oct.-132

Reservoirs and Tanks

Water Evaporation Control Research	Feb.-100
Reservoir Wall Extension Adds 10 Feet of Water Storage	Feb.-120
Water Tank Conforms to Airfield Structure	Feb.-148
New Reservoir Provides Three-Month Storage	July-120
Electronic Information System Provides Centralized Records and Operational Control	Oct.-105
Using Soil Cement for Reservoir Linings	Oct.-154
Prestressed Concrete Standpipe	Nov.-92

Supply Lines and Distribution

Use of Pressure Pipe in Public Water and Sewer Utilities	Jan.-89
Moving Hydrants the Easy Way	Jan.-148
Protecting Pipe Lines Against Freezing	Feb.-150
Cleaning Eliminates Need for New Water Mains	Apr.-109
Improving a Water System to Meet Growing Needs	July-116
Steel Water Line Survives Adverse Conditions	July-180
Pneumatic Power Speeds Construction of a Water Tunnel	Aug.-108
Electronic Information System Provides Centralized Records and Operational Control	Oct.-105
River Crossing of Water Supply Main Uses Two Cofferdams	Nov.-113

Treatment Plants—Design and Operation

Application of Plastics in Chlorination Systems	Jan.-115
Water Project Designed for Seven-Fold Expansion	Mar.-119
Water Quality	Apr.-88
Instrumentation for Process Control in a Modern Water Treatment Plant	July-95
Sand Leakage Detector for Rapid Sand Filters	July-119
Filter Hydraulics Affect Clear Well Design	Aug.-96
In Water Plants . . . How Small Is Small?	Aug.-125
A Check List for Water Treatment Plant Design	Sept.-132
Are Filter Rate Controllers Necessary?	Oct.-82
Waterworks Move Toward Automation	Nov.-114
Pneumatic Handling of Dry Chemicals at a Small Water Treatment Plant	Nov.-162
Old and New Procedures in Water Coagulation	Dec.-111
Modernized Water Filtration Plant	Dec.-154

Instrumentation and Process Control

Instrumentation for Process Control in a Modern Water Treatment Plant	July-95
Control Center for Milwaukee's Water Works	Oct.-104
Electronic Information System Provides Centralized Records and Operational Control	Oct.-105
Waterworks Move Toward Automation	Nov.-114
Modernized Water Filtration Plant	Dec.-154

Treatment Methods and Research

Water Evaporation Control Research	Feb.-100
How Safe Is Your Chlorine Residual?	Mar.-102
Tests Show Uniformity of Fluoride Ion Levels	Mar.-165
The Re-Use of Treated Waste Water for Domestic Purposes	May-117
Microstraining Installation to Treat 20 MGD	Sept.-115
Breakpoint Chlorination Results in a Saving	Dec.-93
Old and New Procedures in Water Coagulation	Dec.-111

Water Demand

Land Uses and Water Consumption Requirements	Apr.-120
Two Centuries of Water Works Progress	May-126
Planned Program of Development Meets Growing Water Needs	Dec.-106

Water Supply and Sources

New Source Doubles Available Water Supply	Mar.-166
The Re-Use of Treated Waste Water for Domestic Purposes	May-117
Two Centuries of Water Works Progress	May-126
Stream Life and the Pollution Environment	July-104
Automatic Equipment for Rainfall Studies	Aug.-58
Cementing Water Wells	Sept.-99
A Report on Wichita's Water Supply	Dec.-97
Planned Program of Development Meets Growing Water Needs	Dec.-106

Water System and Plant Maintenance

How to Plan a Water Meter Maintenance Shop	Feb.-87
Protecting Pipe Lines Against Freezing	Feb.-150
Seven Years of Meter Maintenance Show Profit	Mar.-164
Cleaning Eliminates Need for New Water Mains	Apr.-109
One-Crew Utility Depends on Two-Way Radio	June-103
Sprayed-On Epoxy Resins	June-174
Waterworks Move Toward Automation	Nov.-114

Water Works Digests

Jan.-144; Feb.-144; Mar.-156; Apr.-178; May-178; June-140; July-144; Aug.-182; Sept.-146; Oct.-144; Nov.-148; Dec.-148
--

ADMINISTRATION

A Primer on City Planning	Feb.-99
The Financial Plan and Community Development	Feb.-107
Formulating a Financial Plan for Local Government	Apr.-118
Accepting Bids for Public Works	Apr.-198
Purchasing at the State Level	May-132
The County Engineer and the Consultant	July-101
Does Your Utility Have a Successful Safety Program?	July-111
Safety Training for Street Maintenance Personnel	Sept.-103
Getting the Most from the Consulting Engineer	Sept.-111
Put it on Microfilm	Oct.-102
Liability Insurance is a Must for County Operation	Nov.-96
Are You a Packrat?	Dec.-95
90 Years of Planning	Dec.-116
Metropolitan Government Will Plan Sewage Disposal for the Seattle Area	Dec.-120

CIVIL DEFENSE AND EMERGENCIES

Independent Emergency Power for Water Plants	Mar.-129
Stand-By Plans for Emergencies	Mar.-152
Civil Defense and the St. Louis Tornado	June-95
Flood Forecasting	Sept.-113
Radiation Monitor for City Water Supply Systems	Oct.-122
Meeting an Earthquake's Challenge	Oct.-233
Public Works Responsibilities in Emergencies	Nov.-163

MUNICIPAL POWER PLANTS

Millions Come Faster to This Municipal Power Plant	Jan.-127
Selection of Firing Method for a Small Steam Plant	Jan.-158
Emergency Start-Up Power Supply	Feb.-70
Field Testing of Electrical Equipment	Mar.-186
Underground Construction Principles	Apr.-78
Basic Electrical System Layout	May-140
Analysis of Electric System Operations	June-78
Remote Supervisory Control of Pumping Stations	July-76
Electric Utility Depreciation	Aug.-210
Insurance Coverage	Sept.-202
Graphical Method for Determination of Fuel Consumption	Oct.-204
How Cost Trending Helps You Buy At The Right Time	Nov.-72
Preparation of an Electric Revenue Bond Prospectus	Dec.-76
Cutting Municipal Power Costs	Dec.-119

INSECT AND RODENT CONTROL

Odor and Insect Control at a Landfill Operation	Apr.-114
Changing Patterns in Pesticides	May-186
Coordinated Effort Produces Model Rodent Control Program	June-190

PUBLIC HEALTH

The Aerosol Spectrometer	Feb.-91
How Safe Is Your Chlorine Residual?	Mar.-102
Increase in Public Health Research and Training Facilities Recommended	Apr.-184
Solid Waste Code Approved	Aug.-158
Global Water Improvement Program Planned by World Health Organization	Aug.-190
Radiation Sources to be Registered in New Jersey	Dec.-70

RECREATIONAL FACILITIES

Ohio's Roadside Rests Increase Travel Pleasure	Mar.-115
Accurate Colorimetric Determination of pH in Swimming Pool Water	Mar.-163
Recreational Use of Reservoirs	May-90
No Swimming—Public Water Supply	June-62
New Era Opens for Roadside Parks	Aug.-123
Three New Pools Complete 13-Acre Park Development	Aug.-130
Lighting Gives Full Recreational Use of Parks	Oct.-207

GENERAL AND MISCELLANEOUS

Timber Wharves Replaced with Steel-Concrete Construction	Jan.-136
Small Cars or the "Big Three" for Fleet Use?	Apr.-133
Modernizing a Municipal Auditorium	May-134
Use of Highway Embankments for Water Impoundment	May-190
Steel Buildings Used in Park and Forestry Departments	May-201
Health Insurance Benefits for County Employees	June-126
Preparation of a Bond Offering for the Market	June-194
Dynamite + Imagination and Experience = Economy	July-129
Consulting Firm Speeds Documents with Copy Machine	Aug.-135
Metal Jetties Save Money on Beach Protection	Aug.-148
The Equipment Distributors Contribution to Highway Construction	Aug.-207

	Month and page
Channel Deepening and Harbor Improve- ments Will Affect Great Lakes Port Cities	Sept.—116
Stump Removal on a Large Scale	Oct.—134
Reflective License Plates	Oct.—142
The Ohio State University Gives College of Engineering Professional Status	Oct.—198
Aluminum Bus Stop Shelter is Attractive and Easy to Maintain	Oct.—213
Analysis of Vacant Land in the City of Chicago	Nov.—139
Submersible Pumps Dewater Canal Lock	Nov.—155

LEADERS IN PUBLIC WORKS

Thomas Calvin Robbins	Jan. 1—18
Wylie W. Gillespie	Feb. 1—18
Robert A. Reed	Mar. 1—18
Mark D. Hollis	Apr. 1—18
Albert E. Berry	May 1—18
Marion Wilkins	June 1—18
Edward E. Alt	July 1—18
E. J. Yoder	Aug. 1—22
H. H. Hester	Sept. 1—22
Walter M. Franklin	Oct. 1—18
Robert W. F. Schmidt	Nov. 1—20
LeRoy W. Van Kleeck	Dec. 1—22
